Laboratory Services – Customization Service

The company edelweiss dentistry products gmbh in the following referred to as the "service provider" is anxious to provide the customized products as indicated by the customer at "Date work required". Please bear in mind that the time needed for the customization can vary depending on the number of teeth respectively Veneers / OcclusionVDs to be customized. The time needed for the customization lies on average between two and five working days but is subject to change.

The desired return date will be confirmed or changed upon receipt of the model(s) respectively impression(s) of the patient(s) and is only binding from this moment on. The service provider reserves the right to postpone the before confirmed date up to 3 working days and assumes no responsibility for delays caused by the shipping service provider.

Please find this form ready for download as well on our website:
